EgD-WGB-005 · Every dealer-support channel for every counterparty · Verified 2026-08-24

Two rooftops, twenty-one counterparties, four columns per row: what to ask for, phone, email, portal or web form. Luke works down the list and sends every ask in the same week. Contact channels below are the dealer-support channels published by each vendor as of the verification date. Where a vendor does not publish a dedicated dealer-support email or portal URL, the column reads "not published — use phone" and Luke opens the case by phone.

20 · Bank / credit-union-branded VSC administrators

Ask for: Not a standing subscription. When a VIN's VSC turns out to be bank- or credit-union-branded (Ally Premier Protection, GM Financial, JPMorgan Chase, TD Auto, Desjardins, RBC, and similar), Luke phones the number printed on the customer's contract, opens a dealer account against the Torque Motorsports rooftop for that specific customer, files the claim, and records the channel in the sovereign replica for the next visit.

- **Channel:** Phone number printed on the customer's contract booklet.

21 · Selling-dealer outreach (Torque Motorsports internal workflow)

Ask for: Not a vendor row. When a Torque Motorsports customer arrives with a BRP VIN whose administrator the sovereign replica does not already hold, the customer's paperwork (bill of sale, financing contract, VSC booklet) names the selling dealer. Luke's service writer phones that selling dealer directly, dealer to dealer, and reads the administrator and contract number off their record. The administrator moves from tier 3 (unknown) to tier 1 or 2 (known) for that VIN and every subsequent visit.

- **Channel:** Phone.
 - **Written back to:** The sovereign replica against the VIN.
